LADY ASTOR DRIVEN INTO PUBLIC LIFE

Forced to Enter Commons to Aid Husband's Reforms, She Says in Speech

THRILLS GREAT AUDIENCE

New York, April 20.—Lady Astor, who will attend the dinner of the English-Speaking Union tonight...

Both her sister and her husband decided that the first woman member of the House of Commons should have a little rest before attending the international conference...

With the close of her speech, Mary Garrett W. came to the front of the platform and presented her a bouquet...

Lady Astor accepted the flowers, thanked the donor and then looked out at the distinguished audience.

"I hope it would not seem tactless of me," she said with a quizzical smile.

"I know that this welcome has nothing to do with me," she said, as she launched into her speech.

"My entrance into the House of Commons was not, as some thought, in the nature of a revolution.

"First, it was strange to urge your wife to take up public life, especially as he is a most domesticated man; but she is a most remarkable woman."

Women in Politics "Now I must leave the more personal side and get to what it is all about and why we are here.

"I can conceive of nothing worse than a man-governed world," she declared earnestly.

"Personally, I feel that every woman should take an active part in local politics. I don't mean by that every woman should go in for a political career."

"The best way that we can do these things is to show the men our ambitions are not personal. Let them see that we desire a better, safer and a cleaner world for our children and their children."

Pinchot Boom in Scranton A. Nevin Detrich, one of Mr. Pinchot's campaign managers, said today a Pinchot for Governor Committee has been formed in Scranton.

RUINS OF LONDON-PARIS PLANES AFTER COLLISION

This photograph shows how completely the two cross-channel airplanes which collided over the little village of Thiéouly, France, were destroyed by the crash and the resultant 400-foot fall to earth, causing the death of all the passengers and operators

contractor machine was shown by the mill of county leaders answering the S O S sent out yesterday by W. Harry Baker, secretary of the Republican State Committee.

Among them were Senator E. E. Jones of Susquehanna County, "Dirt Road" Jones, as he is called by his friends, brought word there is strong Alter sentiment in Susquehanna County.

Others who hastened here for stiff "shots" of encouragement from Baker were Senator Horace Schantz, of Lehigh County; Harry B. Scott, Center County, candidate for the State Senate and the State Committee, and John C. Forsyth, Republican leader of Clearfield County.

Altoona, Pa., April 20.—Attorney General George E. Alter is touring Blair County today in the interests of his candidacy for the Republican gubernatorial nomination.

Pottsville, Pa., April 20.—An attempt in Schuylkill County to line up officeholders for Alter and the State machine candidates is shown in a joint letter sent out here, signed by State Treasurer Snyder and State Compensation Commissioner Houck.

"Dear Fellow Worker—We are very anxious that every person who is actively identified with the Republican Party and is receiving any of its favors, shall be present at the County House in Pottsville Saturday, April 22, at 11 o'clock, for the purpose of discussing ways and means to provide active work in behalf of the candidates for Governor, Congress and members of the Legislature.

"This is very important to you, and we trust you will make arrangements with your employer to permit yourself from duty that day so you can be present at the meeting to respond to your name when the roll is called.

"CHARLES A. SNYDER, "PAUL W. HOUCK."

Pinchot supporters countered by calling a meeting at the same time to be held in the courthouse yard. C. F. Foley said he would address the courthouse yard audience and that he would have an audience five times as large as Snyder and Houck's.

U. S. AIR HERO HONORED As for General Wood, many believe his present post as Governor General of the Philippines is the fact that he is scheduled to head the University of Pennsylvania make it virtually impossible for him to become connected with another great project.

French Confer Honor Legion Medal on Sergeant Rockwell Paris, April 20.—(By A. P.)—The order of the Legion of Honor has been conferred posthumously on Sergeant Kiffin Yates Rockwell, a member of the Franco-American Flying Corps, who was killed in action, September 23, 1918.

The accompanying citation says: "The American pilot, whose coolness, courage and daring never ceased to arouse the admiration of his chiefs and comrades, had previously received the Military Medal and citation for his distinguished service."

Sergeant Rockwell was the second American flyer to be killed in action in the World War.

Wood Also Eliminated As for General Wood, many believe his present post as Governor General of the Philippines is the fact that he is scheduled to head the University of Pennsylvania make it virtually impossible for him to become connected with another great project.

One member of the committee said he believes the magnetism of the steel man, his general gentility, plus his initiative, would serve to bring the enthusiasm of the whole country to the big project without delay.

Others whose names were mentioned today include Welfare Director Warburton and Colonel John C. Groome.

Busy Now on Fair Finances

Continued from Page One pride in, but it is going to be a noteworthy world event.

"Right at the beginning we must be particular not to visualize this project as a local exhibition. If that idea gets abroad we might as well hold a county fair and have done with it. This exposition is to be a great world's conclave and will include a series of exhibits of the widest international scope.

The peoples of the world will be brought together here in peace and they will be introduced to America and Americans so they may know our worth, the reality of our high ideals, and the spirit that prompts the event in which they will participate.

"We must not take a selfish insular view. I think most of us do not care where the chief commissioner comes from or whether he is a Philadelphian or not. I do not agree with some of the others that he should necessarily be a great engineer to handle such a vast undertaking, although engineering qualities count. It will be the commissioner's human qualities that will count most in the long run."

Not a One-Man Job Mr. Mason's thought was that, in any event, the direction of the fair as a whole cannot be a one-man job. The commissioner at the head must have many able lieutenants to carry out the policies and aims of the directorate, and in determining those policies the views of the majority, he believes, should rule.

The special committee is known to be considering several men of national and international reputation for the responsible post. Among those besides Mr. Schwab who are receiving serious consideration are General Pershing, Major General Leonard Wood, General W. Goethals, Rodman Wainman and others.

Mr. Bok has already declared he favors Mr. Schwab for the post and is not even a receptive candidate for the position, he is therefore virtually eliminated. While General Pershing is an excellent soldier and would bring in considerable prestige to the big event, some members of the committee feel that a man more directly connected with business achievement should have the leadership.

Wood Also Eliminated As for General Wood, many believe his present post as Governor General of the Philippines is the fact that he is scheduled to head the University of Pennsylvania make it virtually impossible for him to become connected with another great project.

One member of the committee said he believes the magnetism of the steel man, his general gentility, plus his initiative, would serve to bring the enthusiasm of the whole country to the big project without delay.

Others whose names were mentioned today include Welfare Director Warburton and Colonel John C. Groome.

Two-Gun Miner Predicts MARCHERS WON'T BE TRIED Indicted Mountaineer is Seeking Food for Strikers

New York, April 20.—(By A. P.)—Lawrence "Peggy" Dwyer, a two-gun mountaineer, who is in New York soliciting food for 80,000 striking coal miners in West Virginia, today predicted that the 500 men indicted for treason after the famous "march on Logan County" last summer will never be tried.

Mr. Dwyer is one of those indicted. As a member of the International Executive Committee of the United Mine Workers of America, he is alleged to have been a leader in the march, which was halted only after the Logan-Green County border and been converted into a miniature no-man's land of battle.

Mr. Dwyer is of the true mountaineer type—tall, sinewy, languorous of movement and of speech—and he carries a gun when he is across West Virginia border—usually two of them, he says. "I've been without my guns for only two days in the last twenty years," he said.

The two-day lapse occurred while he was in jail following the Logan trouble.

EXPLAIN HIGH COST OF FOOD

Canners Urge Modification of Ban on Packers' "Side Lines" Washington, April 20.—(By A. P.)—Dismissal or radical modification of the Government's injunction against the food distributing business of the great packers as a "disastrous economic mistake," placing a monopoly in the hands of the wholesale grocers' associations, is asked by the California Co-operative Canneries in a petition presented today in the District of Columbia Supreme Court.

By removing the most efficient competitors of the grocers' associations, the petition alleges, the injunction has operated to place both "retailers and consumers at their mercy," and accounts "for the fact that food prices remain high although growers of food are receiving low prices."

Dr. Donnelly Gets State Job Dr. John D. Donnelly, lately with the Phipps Institute, has been appointed assistant to the chief of the child health division, State Department of Health. He graduated from the University of Pennsylvania and has devoted five years to child-welfare work.

Intelligence Tests Extended Addressing this same section, J. A. King, assistant professor of educational administration at the University, said school children of Pennsylvania have been subjected to 4,000,000 intelligence tests in the last four years.

500 Delegates at Session W. H. Dodd, president of the State Educational Association, presided over the section which discussed the "Best Educational Plan for Pennsylvania," and speakers were Thomas P. Finegan, State Superintendent of Public Instruction; Samuel E. Weber, superintendent of the schools of Scranton, and J. W. Sweeney, superintendent of Elk County schools.

Fully 500 delegates from schools all over the State attended the opening session today.

This is the ninth of a series of such meetings to have been called under the auspices of the University.

One of the principal items in the discussion will be the financing of a program for a general improvement of public school systems in Pennsylvania.

Tomorrow there will be a discussion of problems peculiarly departmental by various groups and of possible re-arrangement of the school system in this State by the general body.

Saturday's meeting will take up new theories in grouping school children and the departmental groups will continue their discussions.

May Force Berlin to Drop New Pact Continued from Page One no reply to Lloyd George's ultimatum that they either withdraw the Russo-German Treaty or accept the penalty of disarmament from the conference's discussions of the Russian question.

The Germans are divided on the issue, and no reply is expected from them before tonight. The Russians say the treaty must stand.

Efforts are being made to have the conference formulate a Russian policy in which the Russo-German treaty can be absorbed, thus giving it the stamp of conference approval and removing the cause of hard feeling.

The plain language of Premier Lloyd George to the German statesmen yesterday over the treaty incident, which at one time threatened to disrupt the economic conference, was believed to have cleared the political atmosphere, but as neither the German reply to the Allies nor the Russian reply regarding acceptance of the conditions for the restoration of Russia was forthcoming, the situation is still considered critical.

According to an English spokesman, the conversation at Prime Minister Lloyd George's villa yesterday concluded by Mr. Lloyd George saying: "I do not wish either to humiliate Germany or to inflict a penalty upon her, but the conference cannot allow the German delegation to continue to participate in discussion on Russia un-

STRIKERS DRAWING ON RESERVE CASH

Anthracite Miners in Pennsylvania Begin to Tap Their Bank Deposits

EJECTION SUITS STARTED

By the Associated Press Hazleton, Pa., April 20.—The first drain on reserve funds by the idle anthracite mine workers since the suspension began nearly three weeks ago was noted today by local bankers, who said that a number of notices for the withdrawal of money from savings accounts had been received.

The cash is not being taken out in large amounts, but in sufficient sums to meet current needs. Withdrawals, the bankers said, was mainly by men with families and unmarried men who are locating in other sections of the country.

Miners living in coal company houses and still allowed credit at the stores maintained by the operators are not pressed for ready cash and expect to "work off" their bills when the collieries resume. Many of the coal diggers have boys and girls employed in mills, factories and other lines and their earnings will tide the families over until the coal industry booms again.

Charleston, W. Va., April 20.—(By A. P.)—Twenty-two ejection suits were filed in Morgantown yesterday by the Rowles Coal Company, operating mines in Monongalia County, this State, and across the line in Pennsylvania, against twenty-two miners occupying company houses in the Cass district of Monongalia County.

This action, coupled with reports that mine tipples and mining property in the county were being wired for electricity and that mine guards were about to be employed, gave rise to the belief that steps were to be taken to resume operations with non-union labor. Hearings on the ejection suits will be held at Morgantown tomorrow before Justice Posten.

Coal loadings in various regions were reported last night to be only slightly in advance of those of Monday and Tuesday.

Pittsburgh, April 20.—(By A. P.)—Charging that miners of the Crucible Steel Company of America at Crucible, Green County, Pa., were compelled to work and were not allowed to leave the village, Francis Feeney, organizer of the United Mine Workers, announced at Uniontown today that the matter had been reported to the Department of Labor, which would conduct an exhaustive investigation.

Sherriff Phillips of Waynesburg, replying to the charge, said he had been in Crucible within the last few days and "no such condition exists."

Says Eve Was Wise in Choosing Apple Continued from Page One mer said the greater the shock with which a thing is received the greater the implication of genius, provided the thing is worth while.

"Intelligence," he said, "plays a large hand; it is individualism rampant. Genius plays for stakes held by the unborn."

Professor Witmer spoke at the section of the meeting which dealt with "Intelligence and achievements tests."

Addressing this same section, J. A. King, assistant professor of educational administration at the University, said school children of Pennsylvania have been subjected to 4,000,000 intelligence tests in the last four years.

In the course of the conversation, Chancellor Wirth and Dr. Rathenau, the German foreign minister, made excuses and presented diffuse explanations, repeating what is already known about the reasons which induced them to sign the treaty with Russia.

FRENCH SAY MORGAN ACCEPTED INVITATION Genes, April 20.—Former Premier Delacroix informed the Associated Press last night J. Pierpont Morgan has accepted the invitation to be one of four bankers who will meet in Europe to study the question of arranging an international loan for Germany.

The object of the loan will be to help reconstruction of Germany, to improve her exchange and to assist her in paying war reparations. M. Delacroix will be present at the commission.

The Reparations Commission decided a fortnight ago to organize a committee of four bankers to study a means for mobilizing the German debt. Besides Mr. Morgan, the members of the committee are Sir Robert Kindersley, of England; Charles Sergent, of France, and Dr. G. Kisinger, of Holland.

New York, April 20.—J. P. Morgan stated yesterday he had not yet received an invitation to accept membership on a committee appointed by the Reparations Commission to study the possibilities of an international loan to Germany.
